

## MUNDANE DATA PAGE

The following are links to charts of events that I have examined over the years. This page is devoted to bombings outside of acts of war. Normally, these are classed as terrorist events. In the past they would have been called acts of anarchy. Almost all of the events listed have a known time to the minute, with the source being referenced on the chart, and with links to the articles by clicking on the time. This page is updated as I get more information, and will likely change month-by-month. Events are listed by year and then alphabetically.
