

MUNDANE DATA PAGE

The following are links to charts of events that I have examined over the years. This page relates to coups and attempted coups. Almost all of the events listed have a known time to the minute, with the source being referenced on the chart, and with links to the articles by clicking on the time. This page is updated as I get more information, and will likely change month-by-month. Events are listed alphabetically, rather than by date. If there is a link on the city or state, then that takes you to a descriptive page on this site.
